

**Nurse Educator: RN, NP, PA, MD or DO**

Healthy Design is looking for an RN, NP, PA, MD or DO educator for **FT, PT, or On-Call** either **On-site or Remote** to take part in the training and education of bedside medical staff on our new safe patient mobility restraint alternative for intubated or confused patients to reduce agitation, over-sedation, delirium and PICS, and increase mobility, humanity, and outcomes.

**Education:** RN, NP, PA, MD, or DO

**Skills:** Critical care knowledge, good verbal/written/people skills, Microsoft Office Suite

**Experience:** Patient care, hospital environment, bedside staff training or management

**Travel Requirements:** 20% – 80% (dependent on skills and preferences)

**Reports to:** Clinical Development Manager

**Salary:** Commensurate with experience

**Hours:** Full-time, Part-time, On-Call (FT=4 days/wk)

**Location:** Headquarters in Rutland, Vermont; Remote; Onsite hospitals

**Healthy Design:** A growing medical device company developing and manufacturing products that make sense

**You:** A problem-solver who consistently demonstrates capacity for deliverables, innovation, initiative, hard work, leadership, motivation, and ability to research and formulate improvements

**Contact:** [Marie@Exersides.com](mailto:Marie@Exersides.com)

**Responsibilities:**

- Provide onsite and remote training and support to nursing staff and other product users
- Engage potential sites and institutional stakeholders in support of product adoption initiatives
- Support lead generation and outreach activities including post-market surveillance
- Attend and represent Healthy Design at conferences and seminars
- Plan and schedule training visits and video-conferences

**Authorities:**

- Subject Matter Expert on Healthy Design's products and their intended uses
- Contributor to Healthy Design's proprietary training platforms
- Client Manager
